ENGINEERING TECHNICIAN – UTILITY LOCATOR/DAMAGE PREVENTION SPECIALIST

ABOUT USDI

Utility Safety and Design, Inc. (USDI – www.usdi.us) provides professional engineering and design, consultation, construction, and operational services for owners and operators of natural gas facilities, including transmission operators, municipalities, master meter operators, and local distribution companies. *We've built our reputation as a flexible partner.* Since 1969 we've served more than 350 systems across the Midwest – some with a single service, others as professional engineers, and still others as operator of record. USDI provides full-spectrum natural gas solutions through

- up-front consultation,
- strategic engineering and design,
- affordable construction services, and
- total operational support.

USDI, is committed to creating a diverse environment and is proud to be an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, age, disability, veteran status or other characteristics protected by law.

JOB SUMMARY & ESSENTIAL FUNCTIONS

USDI is seeking an Engineering Technician to perform utility locating and damage prevention services for local St. Louis area clients. The job will not only include locating of facilities but helping to ensure the safety and continuous operation of the client owned utilities (i.e. gas, water, electric, communication, etc.). Work is performed both inside and outside; and must conform to the strict requirements of state and federal safety regulations as well as company procedures. The individual will be responsible for tasks including, but not limited to:

- Locating of multiple types of utilities
- On-site supervision of construction activity
- Review of construction plans to determine the extent of utilities to be located
- Review of as-built documents to determine current utilities in the area of construction
- Assist with other USDI responsibilities, as needed, with engineering projects and operating obligations
- Maintain Operator Qualification (OQ) certification, as appropriate
