Utility Safety and Design, Inc. provides professional engineering and design, consultation, construction, and operational services for owners and operators of natural gas facilities, including transmission operators, municipalities, master meter operators, and local distribution companies. We've built our reputation as a flexible partner. Since 1969 we've served more than 350 systems across the Midwest – some with a single service, others as professional engineers, and still others as operators of record. Our teams are passionate about safety and compliance, we pride ourselves on having subject matter experts and provide our team with the opportunity to gain knowledge and to work side by side with leaders in the field.

We are seeking a **Natural Gas Specialist/Technician** to perform compliance activities and services for owners and operators of natural gas facilities. The job will encompass all aspects of field and office activities in our **Unionville, Missouri Office**. Work typically involves process checks or reviews of output by a co-worker or supervisor. These checks become less frequent as the incumbent gains working knowledge, skills, abilities, and experience.

What you will be doing:

- Pipeline patrols and utility locating
- Plans and manuals review, update, and implementation
- Compliance records and documentation
- Interface with clients on a regular basis
- Understand, review, and comply with state and federal pipeline safety regulations
- Cathodic protection (CP) surveys and remedial action
- Leakage surveys and leak investigations utilizing standard industry equipment
- Odorization testing and reporting
- Inspections of mains and services
- Service calls, responding to after hour emergency calls
- Emergency valve inspections and maintenance
- Regulator and relief valve installation, testing, and maintenance
- Maintain Operator Qualification (OQ) certification
- Perform all work in compliance with company and government standards, procedures, and requirements

What you bring to the role:

- High School Diploma or Equivalent
- Natural Gas or Utility experience preferred
- Willingness to travel, including overnight stays
- Able to work independently and be self-motivated
- Able to work with minimal supervision or assistance from others
- Possess strong written and verbal communication skills
- Physically prepared for hands-on job tasks in all types of weather conditions

- Able to pass initial and continuous federally required Operator Qualification evaluations
- Experience with utility locating, GPS and/or GIS systems and software a plus
- Maintain a positive work atmosphere through effective interactions and communications with coworkers, management, and clients
- Maintain a safe environment for co-workers, clients, and the public through adherence to established safety standards and timely reporting of potential hazards
- Commercial Driver's License (CDL) preferred
- Must possess a valid driver's license and a good driving record
- Able to pass a background and driving check, employment history, and drug screening
