UTILITY TECHNICIAN

JOB SUMMARY & ESSENTIAL FUNCTIONS

USDI is seeking a Utility Technician to perform hands-on activities and services for owners and operators of utility facilities. The job will encompass all aspects of field and office activities in our Belleville, IL Office. Work typically involves process checks or review of output by a co-worker or supervisor. These checks become less frequent as incumbent gains working knowledge, skills, abilities, and experience. The technician will be trained and in time responsible for tasks including but not limited to:

- Utility Locating and Damage Prevention
- Pipeline Patrols
- Record keeping and documentation
- Leakage surveys and leak investigations utilizing standard industry equipment
- Odorization testing and reporting
- Inspections of mains and services
- Emergency valve inspections and maintenance
- Maintain Operator Qualification (OQ) certification
- Interface with clients on a regular basis
- Understand, review, and comply with state and federal safety regulations

MINIMUM QUALIFICATIONS

- High School Diploma or Equivalent
- Physically prepared for hands on job tasks in all types of weather conditions
- Willingness to work overtime and on-call as needed
- Able to work independently and be self-motivated
- Able to pass initial and continuous federally required Operator Qualification evaluations
- Willingness to travel, including overnight stays
- Experience with natural gas industry preferred
- Experience with utility locating, GPS and/or GIS systems and software a plus
- Maintain a positive work atmosphere through effective interactions and communications with coworkers, management, and clients
- Maintain a safe environment for co-workers, clients, and the public through adherence to established safety standards and timely reporting of potential hazards
- Must possess a valid driver's license and a good driving record
- Able to pass a background and driving check, employment history, and drug screening

ABOUT USDI

Utility Safety and Design, Inc. (USDI – www.usdi.us) provides professional engineering and design, consultation, construction, and operational services for owners and operators of natural gas facilities, including transmission operators, municipalities, master meter operators, and local distribution companies. Whatever your natural gas needs, USDI is your full-service partner. Since 1969 we've served more than 500 pipeline, master meter, municipal, and utility systems across the Midwest – some with a single service (such as leak surveys, cathodic protection surveys, regulator station inspections, and plan development and implementation), others as professional engineers, and still others as the operator of record. USDI provides full-spectrum natural gas solutions through 1) up-front consultation, 2) strategic engineering and design, 3) affordable construction services, and 4) total operational support.

USDI also provides private utility locating services in the St. Louis area to both contractors and private utility owners. USDI focuses on assisting our clients in preventing excavation damages that can lead to injuries or lost time in both the excavation project as well as the normal operations of the utility owner.

BENEFITS

USDI offers an excellent benefit package and compensation. USDI hourly employees are compensated according to an hourly scale. The scale starts at \$27.77 per hour and total compensation ranges from \$81,000 to \$100,000 based on a 40-hour week. USDI benefits include the following:

- Medical Insurance
- Dental Insurance
- Vision Insurance
- Life Insurance
- Short- and Long-Term Disability Coverage
- 401(k) Retirement Savings Plan
- Paid Time Off (PTO)
